## Grupos de seguridad

# VPCs

# Base de Datos

# Buckets

The screenshot shows the Amazon S3 console interface. On the left, there's a navigation menu with options like Buckets, Access Points, and Storage Lens. The main content area is titled 'Amazon S3' and includes a blue header with a security best practices message. Below this, an 'Account snapshot' section provides a summary of storage usage. The 'Buckets (1)' section contains a table with the following data:

Name	AWF Region	Access	Creation date
cloud-group1	US East (N. Virginia) us-east-1	Bucket and objects not public	November 5, 2021, 19:12:04 (UTC-05:00)

At the bottom of the console, there's a footer with links for Feedback, English (US), and various legal notices.
